My responsibilities :

- Participate in daily project meetings and work closely with other programmers, developers, test team and managers;
- Build, validate and maintain web page templates from supplied designs using clean, lightweight, semantic code that adheres to current Web Standards;
- Support and enforce best practices for content layout, navigation and site architecture;
- Eliminate problems reported by my supervisor or test team;
- Meet the deadlines while maintaining the quality requirements;
- Apply company tailored working procedures on a daily basis;
- Inform my team of important issues that may have an impact on the progress of the project;

SOFTWARE ENGINEER INTERNSHIP (Jul - Aug 2021)

Nagarro

I have worked in collaboration with a team to create a web app.
My responsibilities:

- Develop and implement user interface components using React.js concepts;
- Troubleshoot interface software and debug application codes;
- Scrum meetings with the development team to discuss user interface ideas and applications;

PHOTO RETOUCHER (2013 – 2019)

Freelance

I have communicated with my clients, to establish their requirements and deadlines for photos. I was responsible for retouching their photos using Adobe Photoshop and Lightroom and promoting my services online.

This experience helped me to develop my communication skills, attention to detail, coordinating several tasks at the same time, project management and meeting deadlines.
