PROFILE

I am a Computer Science graduate with a strong desire to learn and improve, always keeping up to date with the latest technologies. Seeking to utilize my skills and knowledge to develop innovative and efficient software solutions.

EMPLOYMENT HISTORY

Feb 2023 — Present

Software Engineer, DHV
Remote

- Designing and implementing new features and functionalities on web-based applications, using C#, .NET, Angular and SQL Server;
- Developing client-side interfaces using HTML, CSS, and JavaScript frameworks;
- Creating and maintaining RESTful APIs for seamless front-end and back-end integration;Developed and tested prototypes of devices for specific projects and clients.
- Participating in agile development processes and sprint planning;
- Create responsive and user-friendly interfaces, ensuring that the application is accessible across different browsers and devices;
- Collaborating with cross-functional teams to enhance application features and to understand project requirements;
- Debugging and troubleshooting issues across the entire stack;
- Refactoring and updating outdated code;
- Writing unit tests using unit testing frameworks like xUnit and NUnit.

Nov 2021 — Mar 2022

Front-end Developer , OSF Digital
Remote

- Participate in daily project meetings and work closely with other programmers, developers, test teams, and managers;
- Build, validate and maintain web page templates from supplied designs using clean, lightweight, semantic code that adheres to current Web Standards;
- Support and enforce best practices for content layout, navigation, and site architecture;
- Eliminate problems reported by my supervisor or test team;
- Meet the deadlines while maintaining the quality requirements;
- Apply company-tailored working procedures on a daily basis;
- Inform my team of important issues that may have an impact on the progress of the project.

Jul 2021 — Aug 2021

Software Engineer Internship, Nagarro
Sibiu, Romania

- I have worked in collaboration with a team of interns and seasoned software engineers to develop a quiz web app.
- Develop and implement user interface components using React.js concepts;
- Troubleshoot interface software and debugging application code;
- Scrum meetings with the development team to discuss user interface ideas and applications.

EDUCATION

2019 — 2022

Bachelor Degree in Computer Science, Lucian Blaga University, Faculty of Sciences
Sibiu, Romania

Nov 2022 — Jun 2023

C# and .NET Development, Nagarro
Remote

Topics studied: C# language, OOP properties and principles, SOLID principles, Unified Modeling Language, Objects vs data structures, Refactoring, unit testing, Test-Driven Development.

Dec 2020 — Jul 2021

Webtech - Remote Learning, Nagarro
Remote

Studied technologies used for front-end web development: HTML, CSS, Javascript, React, Git.

| Sep 2018 — Feb 2019 | Front-End Web Developer, Azimut Vision | Sibiu, Romania |

Learned how to build responsive web pages from supplied layouts, using code that adheres to current web standards.

SKILLS

C#	Typescript
.NET	SQL Server
Entity Framework	Html
Javascript	Css
Angular	Git
React	

LANGUAGES

English	Very good command
